  - expected in Oct. : filter publications according to FDM & RDMO

Kooperationsnetzwerk

Alle RDMO-Nutzende und Institutionen, die über eine eigene Instanz verfügen, können sich Rat und Unterstützung von der RDMO-Community holen.
Dieses Kooperationsgeflecht ermöglicht RDMO gleichzeitig, Anforderungen und Feedback aus den Fachwissenschaften zu berücksichtigen, sowie den Austausch und die Abstimmung mit Infrastrukturinitiativen zum Datenmanagement sicherzustellen.

Sub-WG Website - 2

- Future directions:
  - During Hackathon: How can the UAG Website be integrated into all the different RDMO workflows, be it developing technical features or writing content documentation?

  - Improvement of documentation (website = hub)
    + editorial process

  - manpower required & requested!

Data collection

Give time specifications to such a degree as (already) known.

Please fill in the form for each tab. The same tabs may be used later on other pages. You can add a new tab using the green button. Once created, you can edit or delete tabs using the buttons in the top right corner.

| Datensatz 1 | **+** Dataset |

When does/did data collection or creation start?

When does/did data collection or creation end?

| Data set 1 | **+** Data set |

When does the collection or generation of data begin?

When does the collection or generation of data end?

If applicable, give reasons for deviations between planned and actual dates.

previously: wording mixes planning and project phase.

now: wording revised to consider all phases of the project and allowing for an explanation should anticipated dates change.
