

# DMP-2-Zenodo

Publish citable DMPs

Ivaylo Kostadinov

GFBio e.V.

12. RDMO Community Meeting 2024-10-08

# The user story

As a “data-responsible”,

I want to be able to publish PDF versions of a DMP to Zenodo directly from RDMO, instead of having to export the DMP first and login to Zenodo separately.

# Some details

## Minimal functionality

- Can be triggered via API
- DOIs must be available in RDMO

## Nice-to-have functionality

- Snapshots can be published as a new version
- Allow choosing a license

# Implementation considerations

and involved individuals

- Use the existing Zenodo Plugin by Jochen Klar as a starting point (<https://github.com/rdmorganiser/rdmo-plugins-zenodo>)
- Prototyping during RDMO Hackathon (next week)
- Jürgen Windeck\*, David Wallace, Marco Reidelbach, Daniel Arend, Jochen Klar, Marc Weber, Ivaylo Kostadinov
